# Trauma Informed Care & Adverse Childhood Experiences

Featuring:

**Matthew Doll, PhD, Agnesian HealthCare**

**Wednesday, October 4, 2017**

Marian University Stayer Center

## About the Speaker

**Matthew Doll, PhD, Doll & Associates**, a service of Agnesian HealthCare and the Treffert Center specializes in treating children and their families. He works with very young children; a rare specialty. He treats children who have been traumatized physically, sexually, or emotionally. Other specialties include ADHD, affective disorders, OCD, phobias and developmental delays in children. Matt is also trained in corporate consulting, specializing in team building and increasing work team productivity.

## Schedule & Topics

### Trauma Informed Care 9am-12pm

Trauma Informed Care is an organizational structure and treatment framework that involves understanding, recognizing, and responding to the effects of all types of trauma. Trauma Informed Care also emphasizes physical, psychological and emotional safety for both consumers and providers, and helps survivors rebuild a sense of control and empowerment.

### Grab-And-Go-Lunch 12pm-1pm (Sodexo Dining Room)

Featuring sandwiches-Turkey, Roast Beef, Grilled Tuscan Chicken Breast or Roasted Veggie Club. Also includes fresh fruit or assorted salads, chips, dessert, and beverage.

### Adverse Childhood Experiences 1pm-4pm

Adverse childhood experiences (ACEs) are stressful or traumatic events, including abuse and neglect. They may also include household dysfunction such as witnessing domestic violence or growing up with family members who have substance use disorders. ACEs are strongly related to the development and prevalence of a wide range of health problems throughout a person's lifespan, including those associated with substance misuse.
